- Key Findings & Recommended Actions
- 6 suppliers are classified as High Risk, driven mainly by high late-delivery rates and quality rejection rates.
 - 7 suppliers are flagged for AI review because their performance pattern differs from normal supplier behavior.
 - Great Wall Packaging, Fujikawa Resources and Thames Industrial Supply require priority review due to the highest final risk scores.
 - Recommended actions: launch supplier recovery plans, conduct weekly KPI monitoring, validate quality corrective actions, and prepare alternative sourcing for critical items.
